Page 29

This collection is all about making promotional products personal. They are ideal carriers of your corporate message. Whilst in the past, products were merely giveaways, today's standards are much higher. Recipients want to be pleasantly surprised with innovative and cleverly designed products of the best quality.

In addition, products should also be desirable and trendy, attributes which shine through in this collection. Healthy living and sustainability are just two fine examples of trends that are represented.

This collection aims to inspire rather than to sum up product features and it demonstrates how easy it is to turn 'a product' into 'your personal gift': the product carrying your logo, the default gift box around the product and even the personalised packaging available on a large number of gifts. See details on pages 4/5 and make it personal.

SLEEVE & SURPRISE

RANGE OF CORPORATE GIFTS!

in just 3 simple steps:

1 Choose a product from the selected items *

2 Design your corporate sleeve **

3 Send us the artwork by email and we create your corporate sleeve. Now it's your job to create the right occasion to hand out your gift

- * Unique, stylish and memorable packaging
- * Ideal for events or other gift giving occasions
- * Minimum order quantity 250 pcs
- * Articles from stock
- * Available on more than 300 products, see technical info at product

ANTI SKIMMING

RFID stands for Radio-Frequency Identification, it refers to a small chip with an antenna in small electronic devices (like your credit card). The card must be scanned to retrieve the identifying information.

Prevent unwanted capture of data from contactless or "Smart" cards issued by banks, governments and other institutions such as:

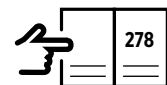

- Credit or debit card
- ID card
- Access / Security Control / School ID
- Health insurance, Medical ID
- Driver's license
- Transit / Park pass

The RFID card holder provides an additional layer of protection, and protects against access by NFC-equipped Smartphones.

Printtechnique Pad printing.

- ✓ Shoot your own 3D photographs and movies
- ✓ Suitable for most mobile devices

WHAT DO *VIRTUAL REALITY GLASSES* DO?

Total immersion is what everyone making a VR headset, game or app aims for. Creating an experience so real that we forget the headgear and act exactly as we would in the real world.

Virtual reality glasses offer the user a 3D experience within a matter of seconds.

1.

VR creates the feeling of actually being there!

2.

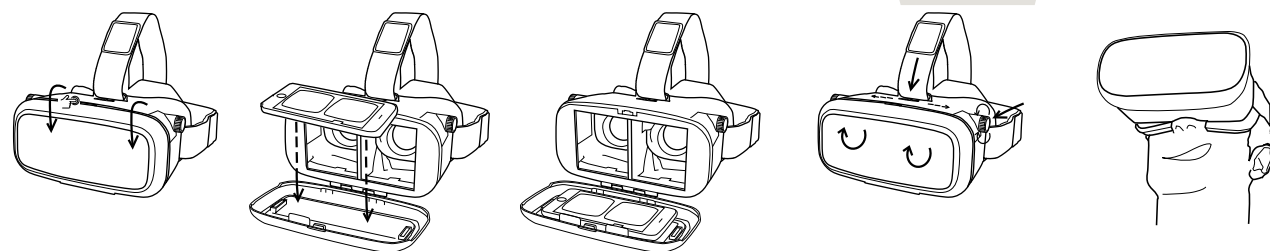

You can enjoy a daily growing quantity of games and movies in full 3D by downloading your favorite APP.

3.

VR glasses are suitable for most mobile phones for both Android and IOS.

4.

You can even create your own 3D movies using our Universal 3D Camera Lens (Page 25)

P330.401

VR 3D glasses

New generation virtual reality glasses for the ultimate virtual reality experience. The glasses are made out of lightweight ABS and have a luxurious magnetic closing system to keep your phone in place during usage. The non toxic headband is made out of comfortable and durable materials and adjustable to any head size. The soft cushioning ensures comfort during longer periods of usage. The lenses are high quality optical resin lenses that can be adjusted to ensure the ultimate viewing experience. On the side there is a button to adjust the distance to the screen of your phone to ensure the right viewing angle. Suitable for all mobile phones up to 6".

Size 19,5 x 14,0 x 10,0 cm. Max. printsize 90 x 50 mm
Printtechnique Pad printing. Extra info Sleeve option, see page 4/5.

THE NO. 1 IN VR!

NEW

Printtechnique Pad printing.

Point | 01

- P300.141 ● P300.145
- P300.143 ● P300.147

Point | 01 tech pen - stylus & USB 4GB

The Point | 01 tech pen is by no means average. This pen has an integrated stylus, ultra-thin 4 GB USB stick and clip to attach to your papers. This is the pen you will never lose or forget at home. Registered design®

Size 14,5 x 0,9 x 1,3 cm. **Max. printsize** 80 x 6 mm
Printtechnique Pad printing. **Extra info** Sleeve option, see page 4/5.

4 GB

| 03

- P314.141 ● P314.145

Point|03 APP laser pointer & presenter

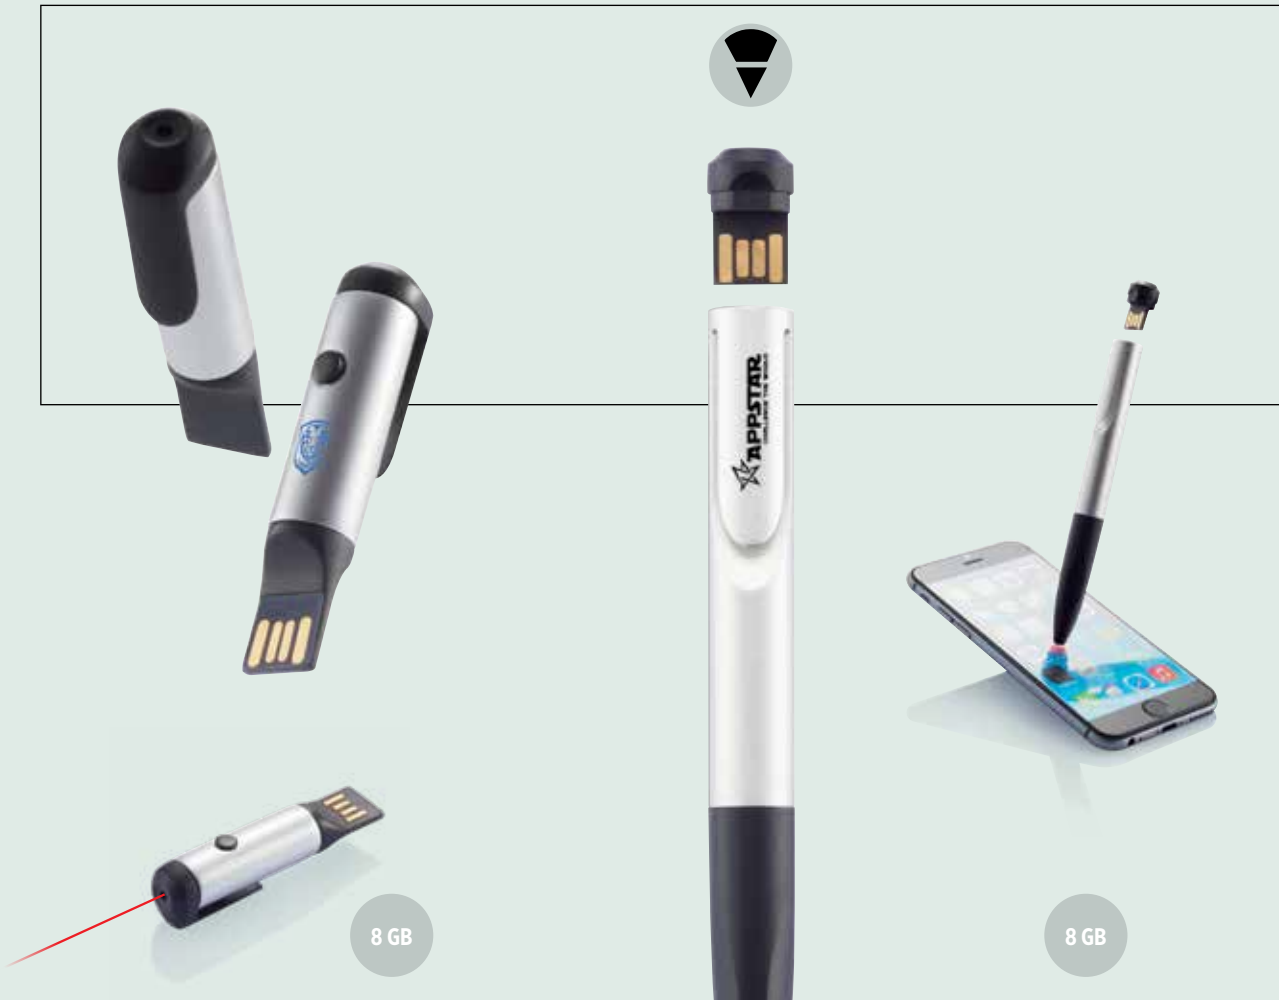

Point|03 is an APP controlled laser pointer & presenter giving you full control over your presentation. The pen's clip has an integrated USB2.0 flash drive to store and transfer your work. A removable laser pointer, which once connected to your mobile phone and the APP, makes giving a presentation as easy and convenient as it ever can be. At the same time the slim aluminum pen or stylus can be used to make your notes during the meeting. Registered design®

Size 15,0 x 0,9 x 1,3 cm. **Max. printsize** 60 x 6 mm
Printtechnique Pad printing.

4 GB

Nino

P314.002

Nino laser USB 8GB

On the one hand it's a laser for use during presentations, you can use the laser dot to point out what you think is important. And it is a handy 8 GB USB stick on the other. With a sunken clip so that you can always carry it with you everywhere.

Size 1,2 x 1,5 x 6,5 cm. **Max. printsize** 20 x 5 mm **Printtechnique** Pad printing. **Extra info** Batteries included.

Nino

P300.902

Nino stylus pen USB 8GB

You can work faster and easier on your telephone and tablet with the special touch screen pen. It also includes a normal pen. But this Nino is in fact chiefly a good-looking 8 GB USB-stick. With an ultra-thin sunken clip so that you can always carry it with you everywhere.

Size 13,4 x ø 1,3 cm. **Max. printsize** 50 x 6 mm **Printtechnique** Pad printing.

Up

● P300.251 ○ P300.253 ● P300.255

Up stylus pen USB 8GB

Up lets you create and save all your inspirational ideas. The stylus lets you sketch or write with a greater precision than the tip of your finger. Due to the round barrel it's convenient to use from any angle. On paper the parker type refill brings a long lasting writing experience. The removable 8GB USB memory stick is safely stored in the top of the pen. Registered design®

Size 13,6 x ø 12,0 cm. **Max. printsize** 40 x 5 mm **Printtechnique** Pad printing.

Stylo

● P327.150 ● P327.152

Stylo 3 in 1 pen - 4GB

Stylo brings traditional writing and current technology together in one pen. Small notes or a quick sketch can be made with the ballpoint on paper or with the precision touch pen on your phone or tablet. On top of that all your data can be stored on the 4Gb USB stick. Registered design®

Size 15,7 x ø 1,4 cm. **Max. printsize** 25 x 5 mm **Printtechnique** Pad printing.

4 GB

- P300.881
- P300.883

POWER BANK SAFETY

Would you take the risk of a recall?

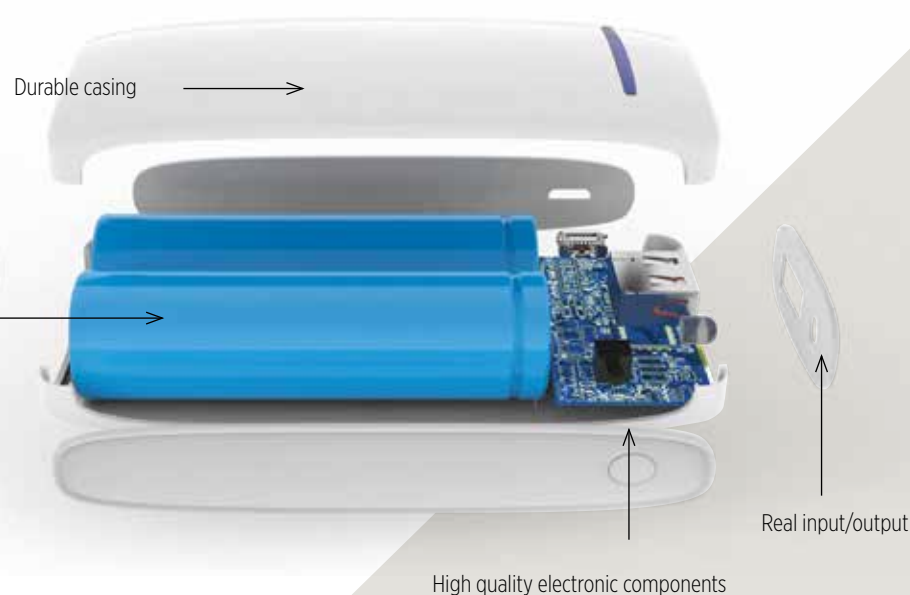

In our 'connected world' the demand for information is increasing day by day. Not just when we are at home or in the office but even more when we are out on the road. There is only one problem, more information, means more power. A power bank is the ultimate gift for people who like to stay connected.

However what makes a power bank a reliable gift? Are you familiar with the consequences of, overcharge protection, over-discharge, short circuit protection, over current protection? In a booming market, price becomes more important than the product itself. Products may look identical, however internally they are completely different. Even though the appearance might be similar, the real essentials of the item are located on the inside. This is a part you cannot judge for yourself. We take care of this for you to make sure your power bank is as safe as possible. Instead of following the market with risky cheaper power banks we have raised our quality level and made sure all our partners produce according to our high standard.

This standard allows you to select a 100% safe power bank. After all it is the carrier of your message!

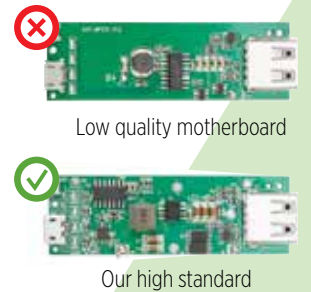

SAFETY FIRST!

WE GUARANTEE:

That all our power banks have the following specifications:

OVERCHARGE PROTECTION
This function ensures that your battery won't charge beyond its capacity when being charged for a longer period of time. Power banks without this function can be dangerous while being charged.

OVER-DISCHARGE PROTECTION
This function ensures your battery is not fully depleted. A completely empty battery can't be re-charged again. Power banks without this function are likely to have a short life span.

SHORT CIRCUIT PROTECTION
This will protect both the motherboard and battery in case of short circuit and shut down the item without any risk of further damage to item or user.

OVER-CURRENT PROTECTION
Ensures that it's not possible to have a high current being transferred from your power bank into your mobile device. This guarantees optimal protection to avoid damage to your mobile device.

- BATTERY QUALITY**
We only use A-Grade batteries and do not accept B-Grade batteries at any stage. Therefore we demand that our suppliers only work with certified battery factories.
- BATTERY CAPACITY**
All our power banks come with the original mentioned capacity. This is tested before the battery goes into the actual power bank.
- BATTERY LIFE TIME**
All power banks have a life time of at least 300 charging cycles because of the A-grade quality battery.
- REAL OUTPUT AND INPUT**
All power banks have the real output and input as mentioned in our product description. This is tested multiple times during the production process.

All our power banks are tested by official institutes for CE and therefore comply with the strict regulations set within the EU.

All our power banks are tested by official institutes to check they are manufactured according to the ROHS regulation and avoid items with high contents of chemicals entering the EU. We perform additional tests on each production for extra security.

- ✔ Easy access opening

ANTI SKIMMING

RFID stands for Radio-Frequency IDentification, it refers to a small chip with an antenna in small electronic devices (like your credit card). The card must be scanned to retrieve the identifying information.

Prevent unwanted capture of data from contactless or "Smart" cards issued by banks, governments and other institutions such as:

- Credit or debit card
- ID card
- Access / Security Control / School ID
- Health insurance, Medical ID
- Driver's licence
- Transit / Park pass

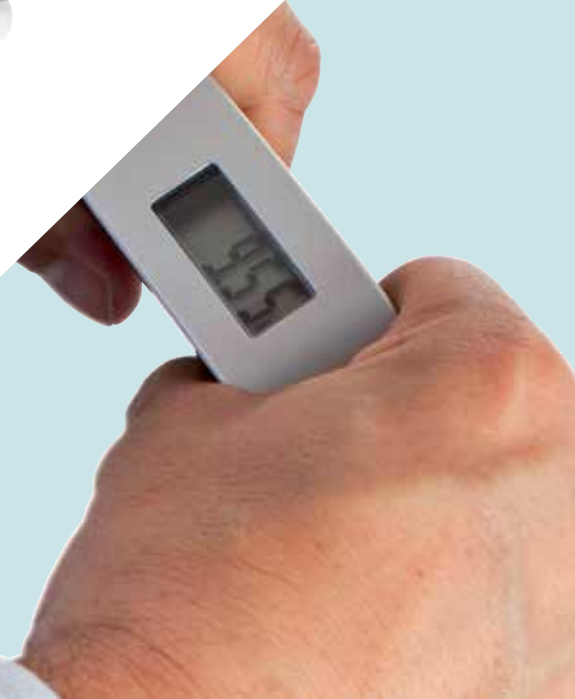

The RFID card holder provides an additional layer of protection, and protects against access by NFC-equipped Smartphones.

COB (CHIPS ON BOARD)

COB (Chips on board) is a new revolutionary lighting technique that will replace the traditional LED light in the coming years.

COB is multiple little lighting chips placed on a flat yellow strip which provide many advantages:

- COB is one steady light source giving a much higher quality of light than LED using multiple small light sources.
- COB uses the energy sources more efficiently than regular LED lights resulting in a longer life cycle for the product.

- ✓ Bright working COB light
- ✓ With easy to use magnet function
- ✓ Including LED light

Printtechnique Pad printing. **Extra info** Sleeve option, see page 4/5.

XDDDESIGN®

XD APPAREL

OUR MISSION

DESIGN TODAY FOR TOMORROW

With XD Apparel we intend to lead the sustainable performance outerwear gift industry as the supplier that has the most ambitious social and environmental standards. We believe sustainability is the only way forward. We also believe it is our duty to offer our business partners an opportunity to contribute to lessening society's impact on nature.

XD Apparel is taking the high road to sustainability. We work with fabric and component suppliers that offer the best sustainable materials and choose manufacturers that have unquestionable social track records.

SUSTAINABLE

Sustainability is a holistic concept that encompasses everything we do at XD Apparel. It's hardwired into our DNA. From start to finish, our focus is on clean design, clean manufacturing, and ultimately, clean end of life.

RECYCLABLE

We work closely with our suppliers to develop fabrics and components that help reduce waste. Our recycled polyester fabrics are made from post-consumer beverage bottles that would otherwise end up in landfills or be burnt.

RESPONSIBLE

We are all responsible for the future of our planet. XD Apparel is well aware that business as usual is no longer possible. This is why we are taking action now: reducing toxic chemistry, encouraging recycling, supporting fair working conditions, and exploring all the ways in which we can play a role in inspiring change.

- ✓ Machine washable at 30 degrees (without softener)
- ✓ Free garment bag and hanger

SPORT, CASUAL, REFINED

A timeless design with a sporty edge and unconditional versatility, Hamburg is the go-to jacket for urban and active lifestyles. The straight cut body, made in sustainably-sourced XT Trend light polyester, is trimmed with wide 2x2 ribbing at the hem and cuffs to keep the drafts at bay. The minimalist style includes two hand pockets on the outside, two pockets inside, and a headphone-out passage. The contrasting colored zipper teeth infuse a retro sporty aesthetic to a jacket that will excel in any environment.

TAILORED FOR FUNCTION AND STYLE

An instant classic, Dublin revamps the iconic field jacket with our eco-performance fabrics in a finely tailored design that offers the ideal mix of function and fashion. Made in a lightly textured XT Trend light polyester with a mesh lining, the authentic style will protect from the elements without losing any of its cool. The fitted shape features adjustable tabs at the waist, four standard issue utility pockets and dual position snaps at the cuffs. Engineered down to the last detail, the high-stand collar houses a stow-away hood under a low profile zipper.

STREAMLINED THERMAL COMFORT

Stockholm is the ideal padded jacket for versatile use as a stand-alone piece or for layering. The long sleeve slim padded jacket is made with Aria Thermore® padding which boasts a soft and down-like feel, superior warmth-to-weight and the ease of care and fast drying properties of sustainable recycled polyester. Tight quilting lines keep the jacket close to the body, while shaped seams provide a more fitted look for women.

PRINT INFORMATION

Pad printing

This method is the fastest and most accurate because it allows printing of logos with a high number of colours on usually most surfaces. Generally the print is applied on small objects made of plastic or other hard materials, on which the paint is transferred with a silicon pad.

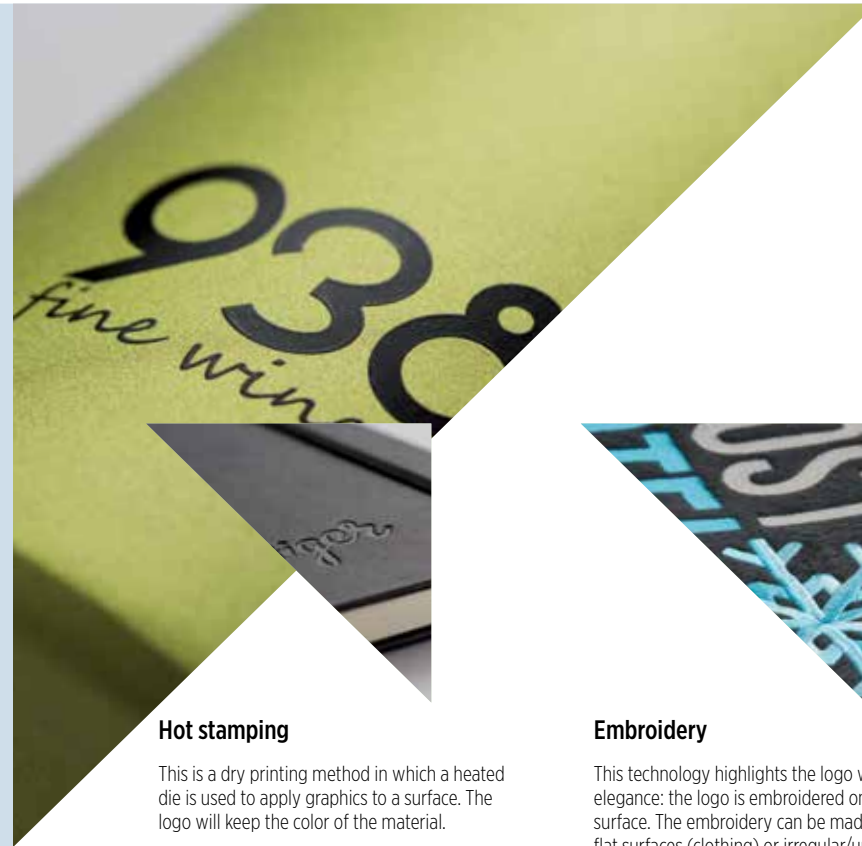

Silk screen

Silk screen printing is a stencil technique in which ink is forced through a mesh, originally of fine silk but now commercially more likely to be nylon. It's an all embracing process used on general materials, metal, plastic pens and PU (simulated leather).

Silk screen (round)

With Round silk screen printing, it is possible to produce multi-coloured all-round imprints, thereby making optimum use of the promotional surface

Hot stamping

This is a dry printing method in which a heated die is used to apply graphics to a surface. The logo will keep the color of the material.

Embroidery

This technology highlights the logo with elegance: the logo is embroidered on the object's surface. The embroidery can be made on plain/flat surfaces (clothing) or irregular/uneven surfaces such as hats, backpacks, bags, etc.

Digital print

This technology prints a digital-based image, like a photo, directly on a product. Perfect for short-runs, personalization and prototypes, the digital printing technology does not have any set-up time, which allows a short turnaround time.

Doming

Doming is a printing technique where several materials, mostly stickers, are being applied with a transparent coating. A resin layer (epoxyresin) gives a 3-D lens effect, and depth and extra brightness to colours.

Laser engraving

This technique uses a laser beam to print text, logos or drawings by engraving the object's surface. Generally it is used on metal but the same technique can also be applied with excellent results on wood or plastic.

Diamond engraving

This technique uses a small diamond to engrave a text or logo on the surface of an object. This technique is used to engrave glass items mainly.

Transfer

This is a silk screen or digital print on a paper label, it is then specially prepared for the transfer to be applied at high temperature on the object using a hot-press.

CO2 engraving (new)

This technique uses a laser beam to print text, logos or drawings by engraving the object's surface. It can be applied with excellent results on wooden objects.

Sleeve & Surprise

Design your own range of corporate gifts! Choose a product from the selected items. Design your corporate sleeve. Send us the artwork by email and we create your corporate sleeve.
